CANDIDATE FOR CITY COUNCIL MEMBER CITY OF HESPERIA

NAME: EDWIN PACK OCCUPATION: Incumbent

When I first ran for City Council in 2002, my primary focus was on three items. Public Safety, Roads and improving our sales tax base. I knew if we could work out our funding, we would have the ability to improve the other areas.

Over the past four years, we have added 14 new positions to our police force, 12 positions and 2 ambulances to our fire department and will have paved 102 miles of roads by the end of this year.

We have completed the Main St. interchange and are ready to start on the Ranchero underpass this year. I have worked to help bring in major retailers so we don't have to drive to Victorville. We have Target, Home Depot and a Super Walmart and numerous other stores and restaurants all in the final stages of planning.

We have secured funding for the environmental planning and engineering of the Ranchero interchange.

While I feel we have made great strides in accomplishing my goals of four years ago, I have extended my goals and would like your support, so that we can work together to continuing to improve our city and our quality of life.
